## **DETAILED ACTION**

### ***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1,3-8,13,15-17,19-22,24-27,29,39,40,42-45 and 47 are rejected under 35

U.S.C. 102(b) as being anticipated by Parker' 170.

The Parker reference discloses a fluid exchange apparatus for automatic transmissions that utilizes the internal pump 40 associated with the transmission comprising a first chamber 11 and pump 31, a second chamber 12 and pump 37, wherein each pump and chamber has associated valving (29,26,18,27) for matching flows to and from the associated transmission.

In regard to claims 1,3-8,13,15-17,19-22 and 24 the process as claimed would be inherent during the normal use and operation of the device.

### ***Conclusion***

Claims 2,9-12,14,18,28,30-38,41 and 46 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Claims 23,48 and 49 are allowed.
